Who can use it ?

eZee **School Management System** is a dynamic platform that utilizes the latest technology which allows educational institutions to efficiently and effectively manage their school environment and it nurtures the interaction between school, teachers, students and parents in a most effective way that enhances the quality of education.

Why eZee School Management ?

The company is a pioneer in porting school management solutions from legacy, paper-based technology to secure web-based platforms.

eZee School Management offers its solution to customers

as Software-as-a-Service (SaaS). This allows our customers to take full advantage of a single school management system that covers the entire range of school modules.

eZee School Management allows users to store almost all of their school's information electronically, including information on students, employees, properties, teaching meteorites etc. Most importantly, this information can be easily shared with authorized users, records can be easily searched,

It's features

Student Information

Get easy access to student particulars, school and home assignments, PIM/ PIE scores, grading, schedules, address, parents info, extra-curricular activities, and any reports, anytime.

Teacher Information

Track your teacher's particulars, residential addresses and other data. Easy for teachers to keep track of their schedule anytime.

Parent Access

Parents can log in and view their children's information anytime through the Parent Portal. Parents can keep track of their child's attendance, workload, homework and assignments and progress! Check updates regarding school and classroom activities.

Attendance
Track daily attendance and late coming. Easy to use interface to check off your students.

Homework
You can create homework assignments in seconds and share them instantly with your students, check status of homework and pending assignments .
